

# 2026 MAMMOGRAPHY POSITIONING TRAINING

The OAR x CSBI in partnership with GE HealthCare Canada are proud to offer updated, standardized, hands-on mammography positioning training, developed in response to strong demand from breast imaging technologists and sonographers across Ontario and Canada.

 **SATURDAY MARCH 28, 2026 | 10 AM - 3:30 PM**

 **LIVE AT GE HEADQUARTERS IN MISSISSAUGA**

Participants can expect immediate improvements in image quality, with an emphasis on efficient, reproducible positioning methods that require less effort and result in fewer positioning errors.

## WHY SHOULD I ATTEND?

- ✓ Participants will develop practical, evidence-based skills to enhance image quality, patient experience, and diagnostic confidence
- ✓ Standardized mammography positioning and its impact on image quality and recalls
- ✓ Hands-on positioning techniques, tips, and special scenarios
- ✓ Positioning strategies for challenging patients
- ✓ Digital mammography quality control (QC)

### Location

Join us at GE HealthCare Headquarters in Mississauga, a centrally located venue with convenient highway access and complimentary on-site parking. Lunch and refreshments will be provided throughout the day.

GE HealthCare Canada | 1919 Minnesota Ct, Mississauga,
